

# Vi Webinar: Introduction To Radial Cut TPLO

**Date: 4 March 2026**

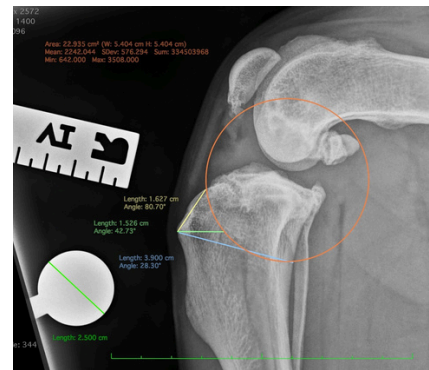

**Time: 19:30 GMT**

**Online: Sign Up via Zoom**

The session will be suitable for vets new to the **TPLO procedure** or those requiring a refresher. Surgical nurses, and any other member of the practice team with an interest in **orthopaedics**, are also very welcome to attend.

**This interactive, case-based webinar will give a thorough overview of the topic, with the following learning outcomes in mind:**

- Brief refresher on diagnosis of CCL rupture.
- Identify suitable surgical candidates for TPLO.
- Why a surgeon might choose TPLO over other procedures.
- Basic understanding of relevant biomechanical principles.
- Overview of undertaking pre-operative TPLO measurements.
- Overview of the equipment and implants for TPLO.
- Benefits of locking screws for TPLO surgery.
- Understand potential complications of TPLO surgery.

## Meet the Speaker:

Gareth graduated from Cambridge University in 1996 and spent several years in mixed and small animal practice before concentrating on small animal orthopaedics. He has been a UK RCVS Diplomate and Recognised Specialist in Small Animal Surgery (Orthopaedics) since 2007. Gareth offers a specialist level referral orthopaedic service at Arthurs Veterinary Specialists, of which he is also the founder. He holds a position as Professor of Small Animal Orthopaedic Surgery at the University of Nottingham, and is a member of Vi's Advisory Board.
